Keynotes & Topics

Future-Proofing Nursing

This presentation provides thought-provoking insight into the role that technology will play as a nursing force multiplier and the impact that tech will create workflow enhancement in order to provide quality patient care in an workforce challenged environment.

Building a Culture of Innovation

This working session will teach teams new innovation competencies to improve how they define problems and tackle organizational challenges. The tools include crowd sourcing ideas, rapid idea validation, empathy mapping and pitching ideas.

What the Industry is Saying

Dr. Clipper provided our group with innovative perspectives on the importance of streamlining workflows and transforming data into real information that drives value-based care. *Dr. R. Kennedy, AMIA 2022 Clinical Informatics Conference Chair*

Dr. Clipper lead the group with exercises and strategies to promote innovation within our institution to garner high outpatient and improved patient outcomes. Great Job! *Dr. T. Wyatt, University of Tennessee Knoxville*

About Bonnie Clipper

DNP, MA, MBA, RN, CENP, FACHE, FAAN

Bonnie founded Innovation Advantage after spending most of her career as a chief nurse executive, serving as the first Vice President of Innovation at the American Nurses Association and pivoting into technology as the chief clinical officer of a health tech start-up. She has over two decades of experience as a nurse executive in both large and small, and academic and community hospitals. As the Vice President of Innovation, she built the innovation framework to bring 4M nurses into the innovation space through education, ANA + HIMSS Nurse Pitch events, created the ANA Innovation Awards and established the ANA + J&J nursing innovation podcast.

She is a top healthcare influencer, podcast host, and global speaker. As an internationally recognized nurse futurist and nursing innovation expert she was a co-author on the seminal work, *The Innovation Roadmap: A Nurse Leader's Guide* and was the lead author of the International Best-Selling book, *The Nurse's Guide to Innovation*. She publishes and blogs regularly on technologies impacting nursing. She is a Robert Wood Johnson Foundation Executive Nurse Fellow alumna and ASU/AONL Executive

Fellow in Innovative Health Leadership alumna.

Dr. Clipper is the sole nurse member of the HIMSS Innovation Board of Advisors and is a start-up coach for MATTER international health tech accelerator.

Her expertise as a nurse executive, work in innovation and experience with technology companies uniquely positions her to understand the operational, financial, and technological needs associated with transformation and helps lead organizations to innovate. She is uniquely qualified to assist healthcare organizations to achieve their innovation and transformation goals.
